PERFORMANCE YOU CAN TRUST

Product Catalogue 2023

MADE IN THE UNITED KINGDOM

UK EDITION

We make **better products** in a **better** way.

» We select materials and processes that are more sustainable, and manufacturing that has less impact.

» Our products are designed to be more efficient, reducing energy use and carbon impact.

» We make products that are reliable, serviceable and built to last.

Our customers face complex and demanding challenges. Raising cleaning and hygiene standards for all, delivering increased productivity and significant contributions toward the urgent sustainability agenda, all pressing demands to the cleaning industry. Fulfilling today's demands and overcoming complex challenges requires professional cleaning solutions that deliver **Performance You Can Trust.**

We continue to focus on truly understanding our customers' needs to better design and manufacture sustainable cleaning solutions that deliver on performance and reliability. At the centre of all Numatic product development and manufacturing are three core values: Innovation, Quality and Price. These values help us to increase productivity, cleaning standards and meet the demands of all industries, across the globe.

Building on Sustainability

The Numatic Sustainability Formula is the foundation to all our product development and sustainable initiatives.

Built to Last

Efficiency

Serviceability

Recycling

Disposal

Built to Last
Our products are built to last with tried, tested and trusted designs, ongoing innovations and a commitment to developing sustainable cleaning solutions.

Efficiency
We ensure our products are the most efficient for every user; from water and detergent usage to electricity consumption.

Serviceability
Our products are designed to be easily and economically serviced throughout their lifecycle. We commit to support every product we have ever made, since day one.

Recycling
We are committed to developing products using high-quality, recycled plastic. Right from their initial design, our products are manufactured to be easily recycled at the end of their life.

Disposal
We work hard to ensure zero waste goes to landfill and have achieved this since 2017.

Integrated Sustainability
A sustainable approach is integrated throughout all of our operations, from design to manufacturing, to distribution and when in use. Our teams always strive to innovate and introduce even more sustainable manufacturing practices at our 42 acre site in Somerset, United Kingdom.

Sustainability in Action

Achieving ambitious sustainability targets requires innovation, action and transparency. These initiatives move us forward in reaching our goals and leading the way in providing sustainable cleaning solutions for our customers.

ReFlo Technology
Many of our products are engineered from our innovative, environmentally sustainable ReFlo Technology. We use the highest quality, recycled, post-industrial plastics, which are diverted from landfill.

The Bigger Picture
We've partnered with **charity: water** to provide water to communities and projects that need it the most. Through every purchase of a 244NX, we donate the equivalent of 5000L of water. **(See pages 8-9)**

Not Just Any Offsetting
We've been reducing our carbon footprint and offsetting global bag sales since 2020. We've partnered with a leading company in carbon offsetting innovation, C Level. **Visit: numatic.com/sustainability**

ReFlo Technology

We continually review, refine and adapt our manufacturing processes to deliver even greater levels of sustainability throughout our product ranges.

Following extensive research and testing, we have introduced ReFlo Technology to our VersaCare and CleanCare ranges. Our teams are working hard to expand the use of sustainable materials across the Numatic product range, wherever possible.

Our ReFlo produced Janitorial Range of products carry the globally recognised SCS Recycled Content Certification. Working with an independent auditing body provides complete transparency and assurance to our customers. All our products certified by SCS Global Services guarantee a minimum of 50% recycled material is used.

WORKING IN PARTNERSHIP WITH:

charity: water

For every purchase of a 244NX, Numatic will fund the equivalent of 5000L of water to projects around the world.

Sustainable and responsible usage of clean water is critical to reducing waste and energy. The 244NX optimises the use of clean water, leaving floors clean, dry, safe and hygienic. Switching from conventional mopping to the 244NX can save users 5000L of water per year.*

We believe no person should be without clean, safe, running water.

That's why, in partnership with charity: water we are committed to helping run multiple projects a year to ensure those who need water the most, have access to it.

To do this, we pledge that for every purchase of a 244NX, we will fund 5000L of water to communities that need it.

" Every **244NX funds 5000L of water** to communities that need it. "

*To find out more, visit: **numatic.com/charitywater**

Our initial project will take place in Madagascar, receiving 100% of the donations.

58% of the population currently lack safe drinking water.

785 million people live without clean water
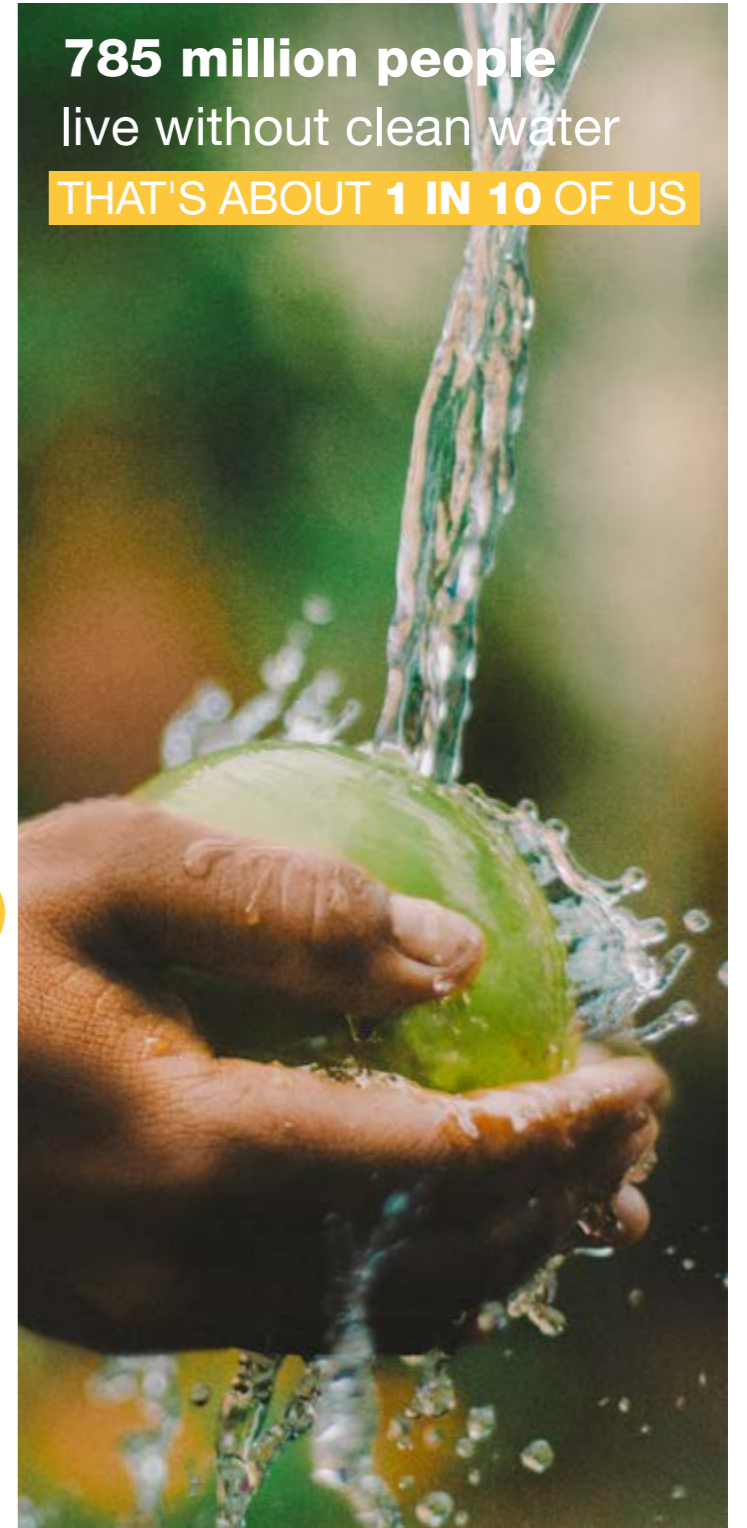

THAT'S ABOUT **1 IN 10** OF US

Since 2021, we have donated

61.5 Million

Litres of Water to Projects Around the World.

" **Our projects will make a real difference to communities.** We'll keep all of our customers up to date with details, progress and completion of each project. "

CONFIGURABLE CLEANING SYSTEMS
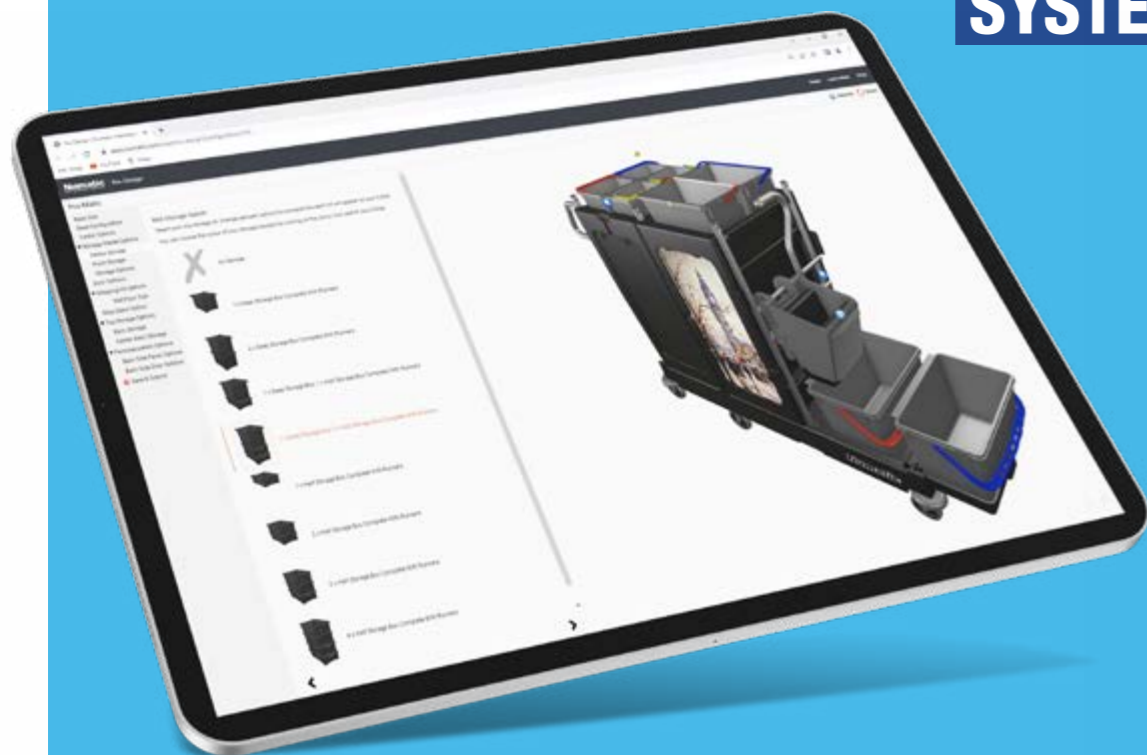

> " Finding a janitorial system that fits your needs completely can be a real challenge. "

Individual Environments Demand Individual Cleaning Solutions

Finding a janitorial system that fits your needs completely can be a real challenge. Giving total freedom of choice to the user, Nu-Design offers the ultimate solution.

Nu-Design guides you through the product configuration process, providing a visual output and configuration breakdown at each selection. The result; a reliable, functional and innovative cleaning system that fits your needs precisely.

Visit: numatic.com/apps/nu-design
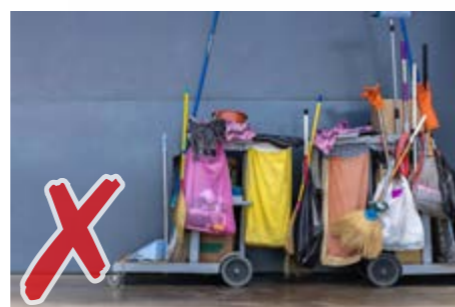

Poor selection and configuration lowers cleaning standards and productivity.

How it Works

1. Select your trolley base and castor options
2. Pick storage options that meet your needs exactly
3. Choose your mopping system, waste options, accessories and personalisation
4. Submit for an itemised breakdown and quote

Compatible with desktop and mobile devices

Nu·Track

Intelligent Fleet Management Telemetry, lowering costs and increasing productivity.

Asset Management
Understand how, when and where your cleaning fleet is operating. Each asset automatically uploads status, location and usage reports to the portal.

Maximise Return
Deploy machines effectively, based on environment, use and hours worked. Insights allow fleet managers to deploy newer assets to the most demanding environments and critical locations.

Intelligent Insights
Cleaning fleet data allows informed decision making for increased cleaning and productivity standards. Assured security and privacy using global cloud hosting means your data is secure and backed up using the latest hosting technology.

Maximum Operating Reliability
Manage and track servicing requirements to keep your cleaning fleet running smoothly, extending machine life and eliminate costly downtime.

Security & Prevention
Prevent unauthorised use beyond specified working environment using WiFi Technology. If a machine is moved beyond the Geo-Fence, an alert will be sent.

NX300 PRO CORDLESS NETWORK INCREASES PRODUCTIVITY

NX300 Pro Cordless Network delivers professional level performance to a versatile and expanding range. Quicker, safer and more convenient, switching to Pro Cordless raises productivity levels, saving time and money.

Smart Safe Charge System
Built-in battery status and health check safety system. The SoH (State of Health) system monitors multiple parameters ensuring battery safety.

Maximum Energy Deployment
Delivering power from cell to machine with minimum power loss via high-quality welded nickel power rails.

Integrated Heatsink Casing
Quickly and efficiently cools the pack in use, optimising delivery of power.

Integrated Handle
Quickly and easily hot swap batteries across the Pro Cordless Network.

Integrated Cooling Design
Keeping cool allows maximum power delivery, the clever NX300 pack design eliminates air pockets acting as an insulation transmitting heat directly out of the pack.

1 HEPA13 Filter Cartridge

Certified HEPA13 filtration down to 0.3 microns at 99.95% efficiency. Our most advanced filtration in the Numatic commercial vacuum range.

2 High-efficiency TriTex Filter

Traps fine dust within its high-efficiency, triple-layer membrane.

3 Triple-layer HepaFlo Filter Bag

3-layers of high-efficiency filter material and unique self-seal tab, allowing for easy, clean and hygienic emptying.

TRADELINE

Compact, tough and highly mobile, the TradeLine vacuum combines a specialist on tool extractor with a big clean-up machine to cover almost any application.

With more and more emphasis being put on health and safety within the construction industry, the demand for extraction vacuums increases year on year, this is where the TradeLine comes in.

NEW **NX 1K**

Runs Longer
Configurable performance that suits you, offering increased runtime of up to 44%*. Ensuring you can keep cleaning when it is most convenient for you.

More Sustainable
NX1K lasts longer than lead alternatives, significantly reducing material use and disposal, providing a much more sustainable solution.

Fast & Flexible Charging
Unlike Lead, NX1K Fast Charge Technology allows completely flexible charging, allowing you to use your machine whenever you need to, no matter how much it's charged.

NX1K Fast Charge Technology drives productivity, providing you an increase in machine availability in comparison to Lead.

Extended Long Life Power
Delivering over 4000 charge cycles, NX1K will last as long as your machine. Utilising the latest Lithium Phosphate Technology, NX1K is one of the safest battery platforms on the market. A 3-year battery warranty provides complete peace of mind for you and your cleaning fleet.†

Nu-Track Insights‡
Built-in with our intelligent fleet management telemetry system, Nu-Track provides in-depth insights, lowering costs and increasing productivity across your fleet.

3 YEARS WARRANTY
3 YEARS WARRANTY
NX1K Lithium Phosphate Battery
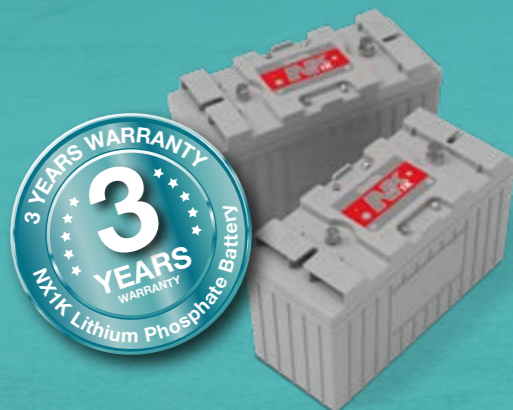

Saves you Money
Investing in Lithium, compared to routinely replacing lead batteries and associated service costs, provides a positive return on investment across the NX1K range, therefore saving you money.
